PRINTING AND COATING

Discover the Bingham Flexo Solution

History

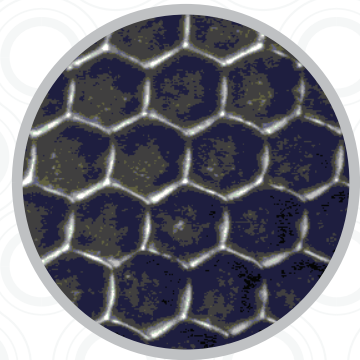

Bingham Flexo Services was founded in 1991 by Ed and John Bingham. At Bingham Flexo Services, our reputation and customer relationships have been built on years of hard work and a wealth of knowledge. Knowledge developed by digging in and helping our customers find solutions to their challenges. Our job is to help you do your job more effectively. Our sales and customer service personnel are the most experienced in the industry, each with a diverse background and a passion to be a customer resource.

Specialties and Services

Purchasing cylinders, doctor blades, pumps, cleaning equipment, etc. for your presses and coaters can be a time consuming and challenging task. Sourcing products, finding the best price, and establishing reliable supplier relationships can take years of effort. For many businesses, knowing what will work best, and who to trust, can be a daunting task. Our specialty is finding the right resource - quality, delivery, and price, to fit our customer's needs. Our service does not stop there. We offer anilox, pump and doctor blade audits, banded anilox testing, and pressroom training to help your operation produce a high level of consistent quality.

Manufacturing Partners

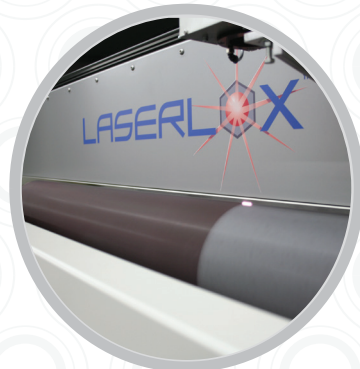

We have been fortunate to partner with some of the most experienced, and highly regarded manufacturers in the industry. We seek out manufacturing companies who have the same customer focus and values that we believe in. We work closely with them to help them understand what is important to our customers. Our goal is insure that they deliver on the quality and service commitments that our customers expect.

Anilox Rolls

Manufactured By Pamarco

- » ThermaFlo laser engraved ceramic
- » EFlo elongated engravings
- » Channeled engravings
- » Patterned engravings
