

Feed & Wipe Rollers

Bingham Flexo have been supplying high quality urethane feed rolls for 26+ years. This experience has lead us to develop our own formulation regarding layer thickness, durometer, and color scheme. We found a qualified urethane formulator and processing company to build a BFS custom feed roll covering.

KEY BENEFITS:

- **Urethane Construction:** Specially formulated polyurethane rubber resists drying caused by the atmosphere.
- **Zero Crush:** 30 Duro inner layer provides the cushioning to prevent board crush
- **Long life:** 60 Duro urethane outer shell provides high durometer rub resistance
- **Built in life indicator:** Yellow inner layer. When you see yellow, caution. It's **TIME TO CHANGE IT!**
